## Course Overview:

This Elementary General English course is designed for learners with little to no prior English experience, focusing on building a solid foundation in essential vocabulary, grammar, and communication skills for everyday interactions. The course aims to develop basic conversational abilities, enabling students to introduce themselves and others, ask and answer simple questions, and discuss daily routines, food, shopping, and locations. We will cover fundamental grammar structures, including the present simple tense, subject pronouns, and basic sentence construction, alongside essential vocabulary related to everyday life, leisure, and travel. Learners will learn to describe people and places, give and follow simple directions, and talk about their interests and hobbies. The course will also introduce basic reading and writing skills, allowing learners to understand simple texts and write short sentences and paragraphs. Teaching methods will emphasise interactive activities, role-playing, and communicative tasks, utilising visual aids, audio-visual materials, and real-life examples. Regular participation, short quizzes, and practical speaking and writing tasks will assess progress. By the end of the course, learners are expected to confidently participate in simple conversations, understand and use basic grammar, improve listening and pronunciation, and develop a foundation for further English language learning.
